

Newsletter

Moving NMR infrastructures to remote access capabilities

October 2023

This is the second newsletter of the R-NMR project. R-NMR aims at organizing the strategies of NMR research infrastructures towards remote access. It is presently collecting information on the experience of facilities during the pandemic. R-NMR has been funded by the Horizon Europe programme since July 2022.

R-NMR Events and News

On June 6, 2023, R-NMR hosted the first online workshop for remote access to NMR facilities. Videos of all the training materials have been compiled and are accessible on our website's [Training page](#).

The first R-NMR consortium (annual) meeting was held at EUROMAR on July 10th, 2023 in Glasgow, and included the presentations of the progress and achievements of WP2, WP3 and WP5. Discussion about Key Performance Indicators (KPIs) and CO₂ emissions took place as well. Also, a General Data Protection Requirement (GDPR) survey completed as part of Deliverable 2.1 (D2.1) and released on June 30th.

Finally, the first R-NMR annual report (D5.4), along with the financial reporting of the R-NMR project, was accomplished and submitted to the EC portal, successfully.

R-NMR Workshops

Remote R-NMR workshop November 10th, 10-12.00 CET, on IconNMR applications

Remote R-NMR workshop December 12th, 14-16.00 CET, on Apache-Guacamole software.

2nd annual meeting of PANACEA project, November 15th-16th, Florence
